## SIXTH ANNUAL REPORT

OF THE

## BOARD OF FIRE COMMISSIONERS,

FOR THE YEAR ENDING APRIL 30, 1879.

OFFICE OF THE BOARD OF FIRE COMMISSIONERS,  
CITY HALL, BOSTON, June 2, 1879.

*To the Honorable the Mayor and the City Council of the City of Boston: —*

GENTLEMEN, — In compliance with the ordinance establishing this Board, they present for your information their Sixth Annual Report, showing the condition, the expenditures, a record of fires and losses, with other statements relating to the management of the Fire Department for the year ending April 30, 1879.

There has been no change in the membership of the Board since the last report; the term for which Commissioner Chamberlin was appointed expiring May 4, 1878, he was renominated by the Mayor, and confirmed by concurrent vote, for the ensuing three years.

The effective force of the department does not vary, to any extent, from that named in the report of last year, viz. : —

Permanent men . . . . .	261	
Call men . . . . .	342	
	—	603
Fire-Alarm branch . . . . .	9	
Clerks . . . . .	3	
Commissioners . . . . .	3	
	—	15
Total . . . . .		618

the proportionate value being in our best judgment 75 per cent. good, and 25 per cent. not fully reliable.

### HORSES.

The whole number of horses in the department, including the fire-alarm, is 139, and, with the exception of 4 now in the hospital, are in good condition; some of them are ageing, but at present show good ability to perform the required work; sickness and accidents are small in proportion to the number. During the year 2 have died, 9 have been exchanged, and 12 have been purchased, including the exchanges.

### THE APPARATUS REPAIR-SHOP

continues to give satisfaction as to work done; there are at present but few pieces of apparatus needing much of anything to be done to them other than slight repairs and painting.

The force employed permanently, including machinists, blacksmiths, painter, and wheelwright, is 9, aided by detailed men from the department when required.

The amount of cost of maintaining the repair-shop is . . . . .	\$11,457 96
Less a credit of old material exchanged for new . . . . .	935 43
	<hr/>
	\$10,522 53

Distributed as follows:—

Repairs of apparatus . . . . .	\$6,734 34
Fire-Alarm Telegraph and Bells and Clocks .	2,040 61
Engine-houses and Hose and Harness Shop .	1,115 10
Tools and small supplies, Hydrants and Reservoirs . . . . .	632 48
	<hr/>

### THE HOSE AND HARNESS SHOP

is doing the necessary work in maintaining the requirements of the harness and repairing of hose.

The cost of its maintenance in repairing hose is	\$1,453 71
Less a credit for old material exchanged for new,	436 04
	<hr/>
	\$1,017 67
Making new and repairing harnesses in use . .	1,021 84
	<hr/>
Total . . . . .	\$2,039 51

### THE FIRE-ALARM TELEGRAPH

is in good condition. The large number of bells and gongs struck, and the many miles of wire used for that purpose, contribute to prevent the certainty of its action. Another detriment, since the invention and the general use of the "Telephone" by our merchants, manufactories, etc., is the interfering of their wires with those of this department. The city proper is laid all over with such wires, to such an extent that their frequent collision will soon necessitate a rearrangement of one or the other, or both, by an under-ground method. With the utmost care on our part failures will occasionally happen, for which no satisfactory excuse can be given, and the remedy is to be found only in the manner indicated above.

New boxes are added from time to time in localities needing them, and a steam whistle has been placed on the Abattoir building in the Brighton District, of great power, sounding the number of the box in the same manner as on the bells and gongs, and is distinctly heard for miles around.

### FIRES.

The number of fire-alarms during the year ending April 30 was 563, of which 197 were "still," 43 needless, and 20 false. The losses and insurance were as follows:—

	Losses.	Insurance.
On buildings . . . . .	\$144,195	\$2,068,515
On contents . . . . .	259,256	1,523,433
Total . . . . .	<u>\$403,451</u>	<u>\$3,591,948</u>

The loss was the smallest, with but four exceptions, since 1857, when the total was \$316,207, and the number of alarms 161. A brief table of comparison of the four exceptions and the past year will be interesting, and is as follows:—

Year.	Loss.	No. Alarms.	Average loss per alarm.
1857 . . . . .	\$316,207	161	\$1,964
1862 . . . . .	367,429	141	2,668
1867 . . . . .	340,765	284	1,199
1868 . . . . .	314,706	293	1,074
1878 . . . . .	403,451	563	716

The number of alarms in 1877 was 514, the loss, \$435,730 and the insurance, \$3,759,579. The average loss per alarm was \$847. The number of fire-alarms in 1878 — 563 — was the largest, with three exceptions, of any year since the record was kept. The exceptions were 640 alarms in 1872, 620 in 1873, and 702 in 1875. Annexation has, of course, something to do with the increase of alarms over former years.

## APPENDIX B.

## FIRE-ALARM TELEGRAPH.

The Ordinance to establish a Fire Department, passed in October, 1873, placed the Fire-Alarm Telegraph and the public bells and clocks under the charge of the Board of Fire Commissioners. The force employed is as follows : —

*Superintendent.*

John F. Kennard.

*Operators.*

Cyrus A. George,  
Charles M. Chaplin,

Granville S. Mendell,  
Uzziel Putnam.

*Repairers.*

George S. Thom,

Wm. H. Godfrey.

Adam McAfee,

*Batteryman.*

Wm. B. Green.

A constant watch is kept at the head-quarters, City Hall, night and day, by the operators. Each operator serves two alternate terms, of three hours each as principal, and the same as assistant operator; so that twelve hours' service at the office, out of every twenty-four, is required from each operator. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, and by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistakes that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

The wires to East Boston pass through Chelsea, and a box and gong have been placed in the City Marshal's office of Chelsea, and connected with them, in order that aid may be promptly summoned, by either city, in case of need.

The following notice is printed with the numbers of the boxes and circulated among the citizens, for the purpose of instructing them as to the manner of giving alarms and cau-

tioning holders of signal keys in regard to the use of such keys.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons, both male and female, and the simple manner of giving an alarm in case of fire should be a matter of common education. The Board of Fire Commissioners recommend to all persons who may see this notice, that they make the necessary inquiries to enable them, in case of need, either to get the key and give the alarm, or direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of fire, follow these

#### DIRECTIONS.

Get the key to the nearest box to the fire.

Open the box — pull the hook all the way down once, and let go.

Wait *one full minute* for the sound of the bells.

If you hear no sound *pull again*, and a *third* time if you get no sound.

If you fail the third time, go to the next nearest box and do the same there; but do not touch any other box if the nearest one gives the alarm.

After giving the alarm, remain a while, if *possible*, by the box, so as to direct the firemen to the fire.

#### CAUTIONS TO PERSONS HOLDING SIGNAL KEYS.

1. Never open the box or touch the apparatus except in case of fire.

2. Never sound the alarm for fire seen at a distance.

3. Be reasonably sure there is a fire before sounding the alarm.

4. Be sure your box is locked before leaving it.

5. Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

6. If you remove from your house or place of business, return the key to the Fire-Alarm Office without delay.

#### REGULATIONS CONCERNING FIRE-ALARMS.

*First Alarm* to be given by striking three or more rounds.

*Second Alarm* to be given on all the circuits by striking ten blows, followed by the box number.

*Third Alarm* to be given on all the circuits by striking twelve blows twice, thus: 12-12.

*General Alarms* to be given on all the circuits by striking twelve blows three times, thus: 12-12-12.

In cases where Hook and Ladder Companies *only* are wanted, signal to be given by striking ten blows once, with the No. of the Company struck twice, thus; H. & L. No. 1, 10-1-1; H. & L. No. 2, 10-2-2, etc.

If more than one Hook and Ladder Company, the signal will be given thus: H. & L. Nos. 1 and 3, 10-1-1-3-3; H. & L. Nos. 2 and 4, 10-2-2-4-4, etc.

In case of second and third alarms, the "tappers" in all the houses of the apparatus will be struck 2-2 twice when *fire is out*. The order for this signal to be given by the officer in command, at the earliest practicable moment.

*Return Signal*.—Notice will be given on the bells and Gongs, one blow four times, thus: 1-1-1-1, hearing which the several Apparatus on the way to the fire will return to their quarters.

#### CHARLESTOWN DISTRICT.

All alarms from boxes in *Districts* 1, 2, 3, 4, 5, and 7, will be struck in Charlestown in the same manner as they are struck elsewhere.

Alarms from boxes in *Districts* 6, 8, 9 and 10, will be given in Charlestown as follows, viz.:—

First Alarms not struck.

Second Alarms, by striking ten blows, followed by the box number.

Third and General Alarms, by striking in the usual manner.

All alarms from boxes in *Charlestown* will be struck in Districts 1, 2, 3, 4, 5, and 7, in the usual manner.

In Districts 6, 8, 9, and 10, alarms from boxes in *Charlestown* will be given as follows, viz.:—

First Alarms not struck.

Second Alarms, by striking ten blows, followed by the box number.

Third and General Alarm, by striking in the usual manner.

#### WEST ROXBURY DISTRICT.

*First Alarms* will be struck upon the bells south of Northampton street only.

*Second Alarms* will be given by striking ten blows on all the bells, followed by the box number.

*Third and General Alarms*, in the usual manner.

## BRIGHTON DISTRICT.

The *First Alarm* will not be struck upon the bells outside the District, but a message be sent from the Fire Alarm Office, by Dial Line, to Dist. Engineer Colligan.

The *Second Alarm* will be given by striking ten blows, followed by the box number on all the bells.

*Third and General Alarms*, in the usual manner.

But the General Alarm will not be struck without special orders from the Chief Engineer.

## CHELSEA ALARMS.

The call *upon* Chelsea will be given by striking upon the Charlestown and East Boston circuits the box number 198, *four* rounds.

The call *from* Chelsea upon this department will be given by striking upon all the circuits of the city the box number 198, *three* rounds; the same for 1st, 2d, and 3d alarms.

## DEER ISLAND.

189 struck three times on the East Boston circuit and the Fire-Boat Gong.

## SCHOOL SIGNAL.

22 struck three times on all the bells.

## POLICE CALL.

Eleven blows struck three times on all the bells.

## SPECIAL REGULATIONS.

Members of companies of the "Call Force" shall report at the houses of their respective companies, and remain there twenty minutes, whenever second alarms are sounded from boxes to which their companies would respond on third alarms.

Members of the several companies of the department, call as well as permanent, must remain in their respective districts when a fire is in progress in any other district, unless the apparatus to which they are attached is called thither. The necessity for this requirement must be evident in view of the possibility of two or more fires occurring at the same time in different parts of the city.

## CHELSEA ALARMS.

Upon the *first* call from Chelsea, Engine Co. No. 5 will go directly; Engine Co. No. 8 will go to Chelsea Ferry and

cross in the ferry-boat, waiting till it comes, if it is not there on their arrival; Hose Co. No. 4 will go by Chelsea Bridge, and Assistant Engineer Dunbar will go in command; Hose Co. No. 3 will move and take position in the house of Hose Co. No. 4.

On the *second* call from Chelsea, Engine Co. No. 11 will go directly; Engine Co. No. 10 and Hook and Ladder Co. No. 8 will go to Chelsea Ferry and cross in the ferry-boat, waiting till it comes, if it is not there on their arrival; Hose Co. No. 1 will go by Chelsea Bridge; Assistant Engineer Cunningham will report to the Chief Engineer of Chelsea.

On the *third* call from Chelsea, Engine Cos. Nos. 7 and 26 will go to Chelsea Ferry and cross in the ferry-boat. Engine Co. No. 22 will take position in the house of Engine Co. No. 26.

#### DEER-ISLAND ALARMS.

On notice of a fire at Deer Island, the Superintendent of Fire Alarms is directed to strike 189 on the East Boston Circuit and the Fire-Boat Gong. He will also notify the Chief Engineer by special message.

Engine Co. No. 5, Hose Co. No. 6, and the Fire Boat are hereby directed to respond; the Engine and Hose Companies going by land to Shirley Point.

Assistant Engineer Dunbar will go in command.

There are 272 Signal Stations or Boxes, and the accompanying "*Running Card*" shows the location of each Box, and also the companies responding to 1st, 2d, and 3d alarms from the several boxes.

#### GENERAL ALARM.

Engine No. 4 not to go outside of Districts 3, 4, 5, or 7.

Engine No. 5 not to leave East Boston.

Hose Nos. 1 and 4 not to leave Charlestown, unless called to Chelsea.

Hose No. 12 will take position at Engine House No. 1.

Engine No. 19 will answer all *general alarms* given for Boxes south of Dover and Berkeley streets; for Boxes north of that line they will take position in Hook and Ladder House No. 4.

In case of a fire in Brighton, Roxbury, or Dorchester, where Engine No. 28 is called, Chemical Engine No. 7 will take position in Engine House No. 28 until its return.

Engine No. 28 and Hook and Ladder No. 10 to answer no general alarm, except by *special call*, north of Dover street, but will cover Roxbury.
